

West Alabama Bank

It's your bank.™

May 12, 2020

Dear Valued Customers,

We appreciate your continued support and business during these unprecedented times. As always, the well-being of our customers, West Alabama communities and employees continues to be our top priority.

We continue to monitor the COVID-19 outbreak in all of our market areas. At this time, we will continue with drive-thru service during regular business hours to serve you. If you need to open an account, speak with a loan officer or need access to your safe deposit box, please call your local office and we will be happy to assist you. Please remember that we offer several ways to access your accounts and meet your banking needs without visiting a branch. Visit our website at www.wabt.com to learn more about our many convenient services.

All of us at West Alabama Bank are looking forward to re-opening our lobbies in the near future. Please know that we are making preparations and will have several new safety measures in place along with social distancing requirements. We will keep our customers updated by email, Facebook and our website as changes occur.

Once again, thank you for your continued patience and understanding. Rest assured, your West Alabama Bankers are here for you. Despite the uncertainty of these trying days, we know that we will overcome this challenge together. We are proud to be your bank and greatly appreciate your business.

Sincerely,

William R. "Rob" Finney

President & CEO
